All pets staying at Centennial Animal Hospital must have up to date vaccinations, to include Rabies and FVRCP, if your cat is allowed outdoors then a FIV vaccine will be required. Every effort will be made to contact the owner to inform them of the situation. If your pet requires treatment for their comfort and safety and we are unable to contact you or your emergency contact, treatment will be provided and you will be responsible for the fees incurred. It is explicitly understood that if you (the owner) choose to seek medical care for any condition, or complication of medical care initially received at Centennial Animal Hospital, you will assume full financial responsibility.
